Congratulations! You Have Been Shortlisted for the Dettroin Full Stack Developer Internship Program

Dear Candidate,

Congratulations! We are delighted to inform you that you have been **shortlisted** for the next stage of the **Dettroin Full Stack Developer Internship Program**.

The selection process consists of **two rounds**:

Round 1: Website Redesign Challenge (Technical Assessment)

In the first round, you will complete a practical development assignment where your technical, design, and problem-solving skills will be evaluated.

Candidates who successfully clear this round will be invited to the **Final Technical Interview**.

Round 2: Final Technical Interview

Shortlisted candidates from Round 1 will be invited for the final interview, where we will discuss:

- Your submitted project and implementation
- React.js, Node.js, Express.js, JavaScript, HTML & CSS
- Git & GitHub workflow

- Problem-solving approach
- Communication and teamwork

Successful candidates will receive their internship offer from **Dettroin**.

Round 1

Assignment – Website Redesign Challenge

As part of your technical assessment, you are required to **select any ONE** of the following school websites and redesign it with a modern, professional, and user-friendly approach.

Choose Any One Website

1. <https://excellenceinternationalschool.com/>
 2. <https://kisaligarh.com/>
 3. <https://pavnaschoolaligarh.com/>
 4. <https://www.vasantvalley.org/>
 5. <https://www.thekalyanischool.com/>
-

Assignment Objective

Your task is **not to copy** the existing website.

Instead, you should:

- Analyze the selected website carefully.
- Identify areas for improvement in UI, UX, responsiveness, navigation, accessibility, animations, performance, and overall user experience.
- Design and develop a **modern, responsive, and professional version** of the website

- You are free to use your own color palette, typography, layouts, animations, and design style while maintaining the website's original purpose and essential content.

We encourage you to think creatively and build something that demonstrates your frontend development and design skills.

GitHub Submission Guidelines

Step 1: Create a GitHub Account

If you don't already have a GitHub account, create one before starting the assignment.

Step 2: Create a Public Repository

Create a **public GitHub repository** using the following naming convention:

DETTROIN-INT---SchoolWebsite

Examples:

- DETTROIN-INT-Rahul-Website
- DETTROIN-INT-Priya-Website

Step 3: Develop Your Project

- Build the website using modern development practices.
- Maintain a clean folder structure.
- Write reusable and organized code.
- Push your code regularly to GitHub instead of uploading everything at once.

Step 4: Git Commit Requirement

Your repository should contain **at least 10 meaningful commits** that reflect your development progress.

Examples:

- Initial project setup
- Homepage completed
- Navbar implemented
- About page added
- Gallery completed
- Responsive improvements
- Contact page created
- Performance optimization
- Bug fixes
- Final deployment

Step 5: Update the README.md

Your repository must include:

- Full Name
- Intern ID
- Email Address
- GitHub Username
- Selected Website
- Live Demo Link
- Technologies Used
- Key Improvements Made

Step 6: Deploy Your Project

Deploy your website using **Vercel** (recommended).

Evaluation Criteria

Your submission will be evaluated based on:

- UI/UX Design
- Creativity & Innovation

- Responsiveness (Desktop, Tablet & Mobile)
 - Code Quality & Project Structure
 - Performance & Loading Speed
 - Git & GitHub Usage
 - User Experience
 - Overall Professional Look & Feel
-

Submission Deadline

Sunday – 10:00 AM

After completing the assignment, submit the project by the given link

<https://docs.google.com/forms/d/e/1FAIpQLSeDpbZQYgFFE1IOZkVhVGE9kMrqbr2Q3z1H8NrKI4Dzj50GSw/viewform?usp=sharing&oid=105981501931058045597>

Please follow the our company page and CEO page (Mandatory)

CEO profile: <https://www.linkedin.com/in/tarunverma-dettroin/>

Company profile: <https://www.linkedin.com/company/dettroin/>

Important Instructions

- Repository **must be Public**.
- Follow the prescribed repository naming convention.
- Do **not** upload the **node_modules** folder.
- Ensure your project builds successfully without errors.
- Make your website fully responsive.
- Submit your assignment before the deadline. Late submissions may not be considered.
- Any plagiarism or direct copying of another candidate's work or existing templates without meaningful customization may lead to disqualification.

Showcase Your Skills

This assignment is designed to evaluate your technical knowledge, coding standards, creativity, Git workflow, deployment skills, and attention to detail.

We encourage you to think beyond the existing design and create a website that is cleaner, faster, more engaging, and visually appealing.

We wish you the very best and look forward to reviewing your work.

Best Regards,
Team Dettroin
